

## Assessing Symptomatic Persons for COVID-19

Checking students and staff for COVID-19 symptoms can pose challenges given the similarities between certain COVID-19 symptoms and seasonal allergies; challenges with younger persons recognizing when they are sick due to mild symptoms; and the fact that some persons may have COVID-19 and not have any symptoms at all.

OSDH has developed a symptom assessment tool to help determine when someone should be kept home or sent home from school and/or tested for COVID-19:

<b>"A" Symptoms</b>	<b>"B" Symptoms</b>
Fever $\geq 100.4$ F	Nasal Congestion/Stuffy Nose
Sore Throat	Runny Nose
Cough	Muscle/Body Aches
Difficulty Breathing	Fatigue
Diarrhea or Vomiting	Chills
New Loss of Taste or Smell	Nausea
	Loss of Appetite
	Elevated Temperature $< 100.4$ F
	New Onset of Severe Headache
<b>Recommend testing when:</b>	
Person has 1 "A" Symptom OR	
Person has 3 "B" Symptoms
